Hello,

As things stand justice can only be dispensed by the medical board of Australia.

I have inserted two appeals into the office of the NHPOPC and I believe my information given to the commonwealth ombudsman is begin to work to my advantage.

My intention is to have justice come from an overrule by the commonwealth ombudsman in the future !!!!

Lynn promised to try to get a response to me out of Paula Fernandez today and I told Lynn " You are now empowered by the NHPOPC to ask Paula Fernandez to respond to me about the CAT team and them being welded as an un-accountable tool of Dr Das !!!!"

an accountable copy of it has ...

I think that ball is now in the court of all others concerned !!!!

-David

ATTN :- Fiona Sinnamon

Dear Madam,

Clearly, Dr. Das's reasons for asking the crisis assessment to visit my house (once with police already in tow) are in-valid and not valid. It is quite clear to me that he does not have the information necessary to make this judgment call without first getting up to date information from me directly regarding my state of mind before placing these calls for a violating assessment to the crisis assessment team.

If he feels he magically knows this information already it is the very definition of un-professional not to document them for my medical records at Monash Health.

I vigorously object to the board finding Dr. Das's approach appropriate and you leave me with absolutely no possible avenue of redress to this situation short of me declaring war against the medical profession and physically forcing them and you to reverse yourselves.

Sincerely,

David Crofts.
