Dear Lynn,

I am the NOT Banker.

My Mother is NOT UP NOT BOXER NUMBER ONE.

My Sister is simply NOT BOXER NUMBER TWO.

I realize my declaration of war to be justified but a reversal of the medical profession is beyond even NOT BANKER NUMBER ONE's abilities.

I now know the indicated solution to the problem is me applying more BOX BOUNDARY to both "sides" of this conflict !!!!

BOTH ARSEHOLES ( in the office of the Ombudsman ) and the IN & NOT IN CUNTS ( of AHPRA ) will benefit from me doing this.

HIS FUNCTION IN BOTH OFFICES IS :- BEND UP, REPORT OUT & CUM IN !!!!

HER FUNCTION IN BOTH OFFICES IS :- BEND OUT, REPORT UP & CUM IN !!!!

The IN concept is replaced by the CUM IN concept ( 2 an office ( Box Boundary !!!! ) ).

The punishing of the mentally ill for making a distressing ( to others ) report will be a thing of the past !!!!

Sincerely,

David Crofts.

ATTN :- Fiona Sinnamon

Dear Madam,

Clearly, Dr. Das's reasons for asking the crisis assessment to visit my house ( once with police already in tow ) are in-valid and not valid. It is quite clear to me that he does not have the information necessary to make this judgment call without first getting up to date information from me directly regarding my state of mind before placing these calls for a violating assessment to the crisis assessment team.

If he feels he magically knows this information already it is the very definition of un-professional not to document them for my medical records at Monash Health.

I vigorously object to the board finding Dr. Das's approach appropriate and you leave me with absolutely no possible avenue of redress to this situation short of me declaring war against the medical profession and physically forcing them and you to reverse yourselves.

Sincerely,

David Crofts.
