I never did you for pulling Das's trick because you are NOT a simple "member" of the general public but a legally qualified "quarteris" owner !!!!

Dear Sir,

I wish you to notify Dr Hillol Das on my behalf.

Dr. William Henry (Bill) Orchard

Thursday, 27 November 2014

The irreplaceable Dr Orchard has gone.
A man of distinction. A man of wisdom.
A professional not an amateur.
A rationalist for the distressed.
A teacher not a dictating "expert".
An Olympian and a great Melbournian.

Sincere condolences to his family,
Margaret and Jane.

Past colleague and friend of Dr William Glanville Cook (dec) of the Rationalist Society of Australia, past colleague and friend of Sir Halford Cook (dec), Prince Henry's Hospital Melbourne. Teacher, mentor and friend of Dr Kristine Meredith and Philip Cook.

Bill made a significant contribution to the knowledge, understanding and treatment of mental illness, particularly bipolar illness and ADHD. He changed the lives of many patients including those shunned by his own profession. He will also be remembered for his generosity of spirit in sharing his knowledge and expertise with colleagues. Bill's legacy will live on in the lives of many patients and friends. Deepest sympathy to Bill's family
