To Stacie of the triage team. 28/5/2015

There must exist a "serious" "documentable" "concern" regarding my mental health for you to correctly escalate my interactions with the medical profession to such a level that you believed that the best course of action was to take me by surprise with the insertion of the CAT & policeman into the home that I was currently comfortably residing inside.

For you to claim this insertion as legal you are going to have to provide me with the "serious" "documentable" "concerns" in question.

Please consider this letter to be a formal request for those reasons or concerns.

Yours sincerely

D. Crofts

D. A. CROFTS.

P.S.

When I responded to your message that you left in my message bank, (because I was currently talking on the telephone with my friend Brian), I believed that I had re-assured you that no action was indicated and both parties hung up feeling happy.

P.P.S.

If you state that you cannot provide a statement detailing these "concerns" I will file charges of willful criminal damage against you because of the mental dis-integration which occurred as a direct result of your ~~actions~~ illegal actions
