Dear David,

As you look into the far off corner of your office, made out of yesterdays cunt stones of the medical profession, imagine you can see me between the particles of his and her asshole splitting off from this most highly cum in point of cunt stone.

I intend to make it clear that the walls of the offices of both the medical profession and the ombudsman are made of yesterdays cunt stones and what peels of them are the arseholes of today.

These are his and her not up arseholes which the medical profession falsely insists upon painting on it's walls as it floods it's hospitals with cunt stones !!!!

Sincerely DAVID CROFTS D.A. Crofts
