The Hon Anthony Albanese MP

Prime Minister  
Parliament House  
CANBERRA A.C.T. 2600

Dear Prime Minister,

I believe that The Australian Taxation Office has falsely determined that my business purchases are those of an illegitimate business. This directly contradicts the fact that these are purchases that can only be made by A.B.N. holders. As a consequence of this faulty audit they amended my business activity statement back to a zero. To compound this false determination, they cancelled not only my G.S.T. registration but also all the rights that I had to repeat these purchases as a legitimate business as they went completely out of bounds and cancelled my A.B.N. entirely.

Please assert that it is a basic human right to run Google Ads and own dot com dot au domain names and inform the Deputy Commissioner of Taxation that they are at least to give me the right to make legitimate business purchases.

Yours sincerely,

David Crofts.
