Whatever problem He may have with His @\$%-Hole He should never come to Dr. Luke Crantock to have His @\$%-Hole violently in-voluntarily inter-ventilated. He is only good for Her when She wants Him to violate or have a gentle-manly, un-scientific look-up Her Insides or She wants Him to loudly poke-up His Crant-Oh Intestinal Scope and loudly take-out both of Her Crant-Oh But-Nut But-Blocks.
